Community Development and Planning Staff Report

EXECUTIVE SUMMARY

Drafted 5/26/2021
Amended 9/20/2021

ZON2021-0029

City Council District: 4 – Nanette Cook

Parish Council District: 3 – Josh Carlson

Applicant: STOLZ3, LLC

Request: Zoning assignment

Location: 2845 Verot School Road

Summary of Proposal:

This is a request for a zoning assignment for property proposed for annexation. The applicant requires annexation in order to receive LUS water service for an “Animal Services” business. This is a requirement of plat approval.

Reasons for Recommendation:

There are CH (Commercial-Heavy) and CM-1 (Commercial Mixed) properties on both sides of Verot School Road from Ambassador Caffery Parkway to Vincent Road. This “Animal Services” business is a dog kennel, for “doggie daycare” and dog boarding. This will be compatible with the other commercial properties along Verot School Road. Staff recommends a CH (Commercial Heavy) zoning district.

Summary of Public Comment:

At the time of publication of the preliminary report, staff has received 1 phone call. The caller asked for more information, then said he would support the project. He felt that a dog daycare and boarding facility would do a good business here at this location.

ZONING COMMISSION RECOMMENDATION

The Zoning Commission held a public hearing regarding this matter at its September 20, 2021, meeting and approved a motion to recommend that the City Council approve the request to assign a zoning of CH (Commercial-Heavy) for this property to be annexed into the city of Lafayette.

I. GENERAL INFORMATION**Applicant:** STOLZ3, LLC**Request:** A request to assign zoning to property proposed for annexation.**Location:** 2845 Verot School Road**Description:** The property is 0.493 acres and is undeveloped. There was one existing house on the property, since removed. The subject property is located generally north of La Neuville Road, east of Verot School Road, and south of Ambassador Caffery Parkway. The applicant requests a commercial assignment in order to build daily "daycare" boarding dog kennels, an animal services use.**Why is Zoning Commission action required?**

The Zoning Commission is required to make a recommendation on all applications for amendments to the zoning map to the City Council prior to council action, in accordance with Article 4 of the Lafayette Development Code.

The LDC establishes procedures for making land development decisions. In order to obtain a certificate of occupancy, building permit or to subdivide the property, the zoning district must permit the proposed land use and development standards. The city of Lafayette is divided into zoning districts that can be generally categorized by agricultural, residential, mixed-use, commercial and industrial land uses. Each zoning district has a set of permitted and conditional uses.

II. ANALYSIS

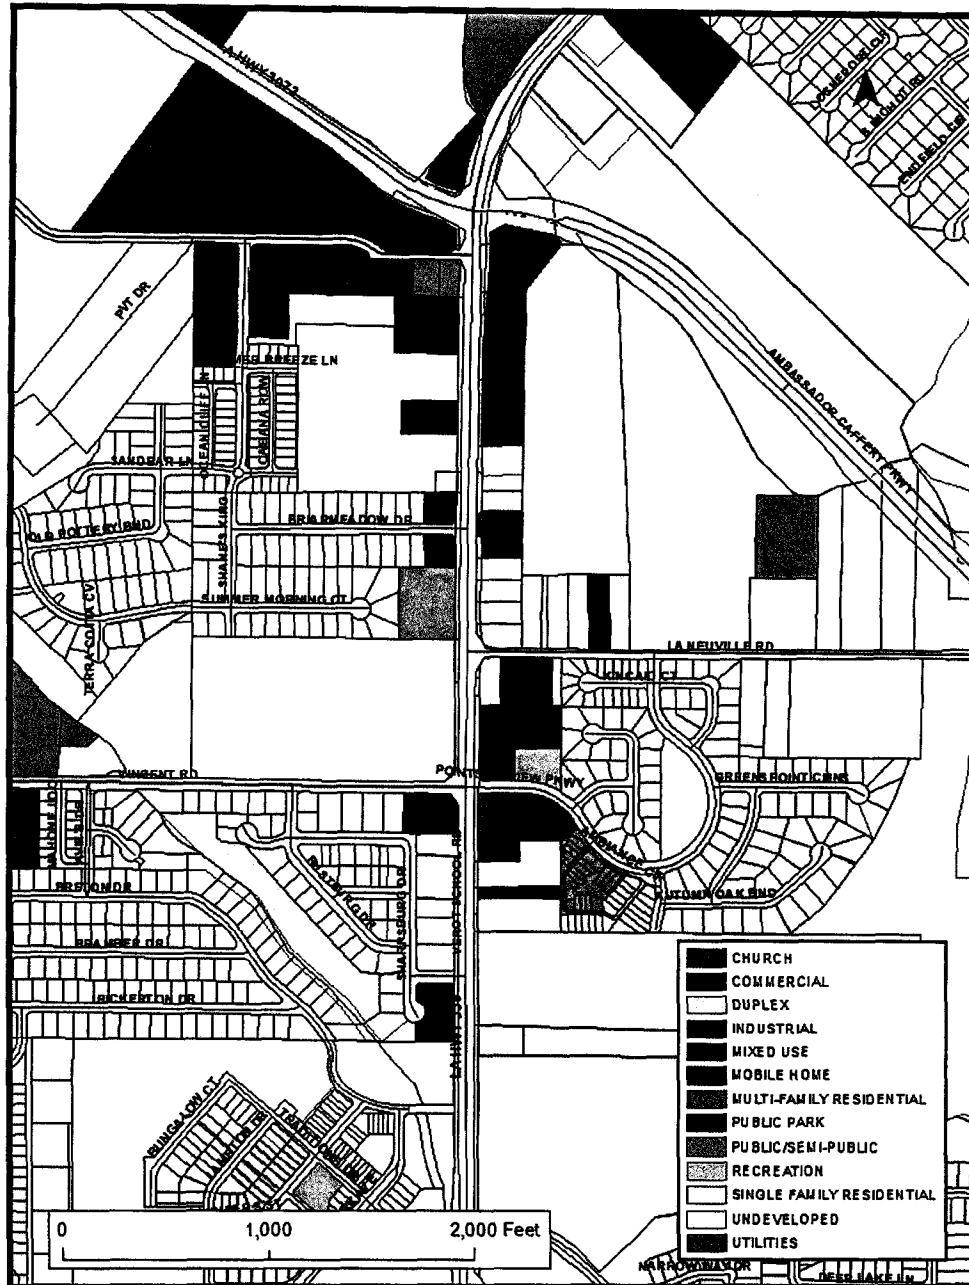

A. Existing conditions Zoning

Zoning map of the area surrounding the petitioned site

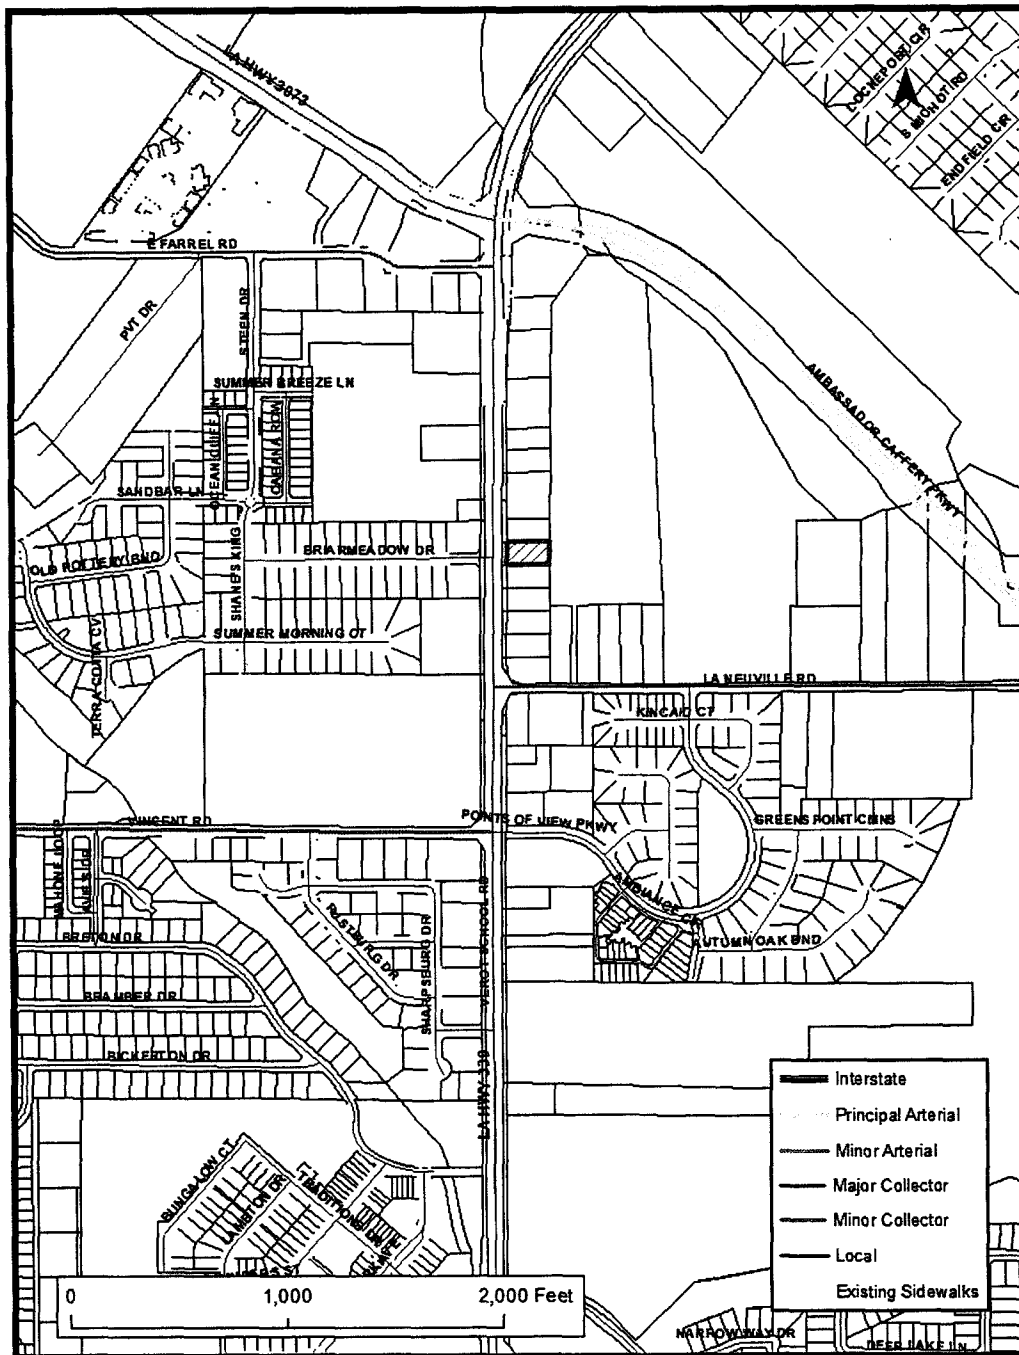

A large number of the properties on the east side of Verot School road and a bit further south are unincorporated and/or undeveloped. The remainder of the properties on either side of Verot School Road is almost all CH (Commercial-Heavy) properties. The span between Ambassador Caffery Parkway and Vincent Road is heavily commercial. South of Vincent Road there is a large number of residential developments. There are five different residential developments in the area, mostly RS-1 (Residential Single-Family), but with some RM-1 (Residential Mixed) and RM-2 as well. One development is unincorporated. There is also a nearby MN-1(c) (Mixed-Use Neighborhood) (conditional) zoning district, which has not been developed yet. It is also planned to be a residential development.

Land Use

Land uses surrounding the petitioned site

Single-family residential developments are an important land use in the area. Between Ambassador Caffery Parkway and Vincent Road are largely commercial uses, with a few remaining older residential properties that front Verot School Road. There are also large areas of undeveloped and unincorporated land in the vicinity. Some of the commercial uses in the area include: a car wash in the property adjacent to the subject property, several fast food locations, a self-storage facility, a used car lot, a convenience store with gas sales, several different kinds of offices, and a health club.

Street classification and sidewalk inventory

Verot School Road goes from a four lane divided highway to a two lane highway just south of the subject property-just past Vincent Road. The sidewalks are discontinued at that point also. Verot School Road is a minor arterial at this location. Ambassador Caffery is a principal arterial, and La Neville Road is a major collector. Vincent Road is a minor collector. The remaining roads are local roads.

B. Recent cases and relevant trends

In 2020, we assigned a zoning district of MN-1 (Mixed-Use Neighborhood) for a design studio at 3014 Verot School Road. **ZON2020-0013 3014 Verot School Road** is further south than the subject property, and the surrounding land use and zoning resulted in the lower classification. The commercial properties that dominate the area of the subject property are reduced in number the further south one goes. Residential properties begin to be the dominant zoning district.

Another annexation case, **ZON2021-0015 3047 Verot School Road Annexation** is in the same general area, further south than the subject property. Staff assigned a MN-1 zoning district at the entrance to the property, with RS-1 zoning district for the remainder. Again, this zoning recommendation came after studying existing land uses and zoning districts. Verot School Road has a great deal of commercial properties at either side, which lessens as one goes further south.

C. Purpose of rezoning and effect on adjacent land uses

The applicant requests annexation in order to receive city services for a small business, a “doggie daycare”. This is a good location for a popular use; all the residential developments in this area will likely have interested clients. The subject property’s location is just a business among many other commercial uses, but this business should blend well with the other businesses in the area.

D. Evaluation of approval standards

The proposed rezoning is consistent with the comprehensive plan.

N/A.

There was a mistake in the original zoning map or text.

N/A.

The proposed amendment is compatible with current development trends, if any, in the vicinity of the subject property.

Yes. The primary uses for the nearby developed properties are commercial. Verot School Road from Ambassador Caffery Parkway to Vincent Road is heavily commercial. An animal services use would fit in easily with the other commercial uses along this span of the highway. Beyond Vincent Road, to the south, the zoning districts and uses tend to be more residential and light commercial.

The proposed amendment promotes the public health, safety, morals, and general welfare.

N/A.

The proposed amendment is compatible with surrounding land uses.

Yes. 2845 Verot School Road is surrounded by other commercial developments, with residential developments close enough to provide clients for this commercial use.
