I am honored to be considered for the chance to be the representative of all students with disabilities who attend the University of Louisiana at Lafayette, myself included. My goal is to coordinate with all persons within the University and Lafayette Consolidated Government to address any issues that may affect any persons with disabilities on campus. This may include ways for these individuals to have easier access to all buildings on campus, and ways to improve anyone that may have trouble navigating sidewalks and handicap ramps around campus that may be in need of repair. I look forward to the opportunity to serve the committee and find ways to help everyone have a more independent and simple life on campus.
