To City Council Chair Liz Hebert and the rest of the City Council:

Thank you for your consideration and approval of this resolution, which will confirm the City of Lafayette's support of our planned multi-family project as we seek formal approval from the State Bond Commission in mid-November. Our board approved the attached resolution earlier this month—your concurrence and approval of that resolution will demonstrate to the Bond Commission that the City of Lafayette supports our project.

There are no tax dollars associated with this or any of the LPTFA's work. There is no obligation to the City of Lafayette. This resolution merely signals your endorsement.

Let me tell you a little bit about our project, which we are calling the Monroe Apartments. The trust is financing this project through a Housing and Urban Development program commonly referred to as a Section 221(d)4 loan. This is a non-recourse loan, in the amount of about \$9.3 million, paid back over 40 years. We are expecting an interest rate around 2.9%. We have slated construction for the beginning of next year.

This is a 70-unit market-rate apartment, located here on our campus between two of our other apartments, on property on Monroe Street that the LPTFA already owns. The apartments were designed by Kirby Pecot. This will be a four-story brick building that will complement and add to the existing architecture in the area. We are also adding adequate parking to serve the new apartments. LCG's Community Development and Planning Department has reviewed our campus-wide parking plan. Our building permits have been reviewed and approved, pending our contractor's stormwater management plan.

We are excited about the level of amenities we will be offering—they include a pool, a fitness center, on-site management and a dog wash station. Most of the units are one bedroom. The LPTFA is also planning to build a small park in this area, to serve all of our residential properties and the public.

Some people get confused when they see "HUD" financing and think "affordable housing." That is not the case with the Section 221(d)4 program. These are market-rate apartments. HUD's Section 221(d)4 is designed to provide competitive financing to high-quality projects that meet demonstrated market demand for new housing. And we all know how strong the demand is right now in Lafayette. There are several market-rate apartment projects around town that have been funded through the financing offered through this program.

This is a highly competitive program. Because the financing terms are so favorable, HUD heavily scrutinizes projects before it will approve them. That means that the projects that do get selected, like the Monroe Apartments, have been thoroughly tested. When we begin construction around the beginning of next year, it will be the culmination of literally years worth of due diligence, design, market studies, and pricing exercises.

There are no tax dollars associated with this or any of the LPTFA's investments. While we operate transparently and in accordance with laws that apply to public bodies, the LPTFA is completely self-funded. The Trust's assets have grown over the years through careful investments alone. The returns on this and our other investments support our annual operational costs or get reinvested back into the trust or other community benefits.

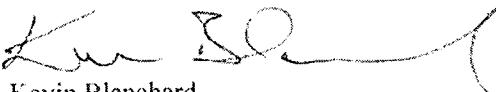

The City of Lafayette is our beneficiary. The LPTFA has used the fruits of its investments in the past to help fund things like the Rosa Parks Transportation Center, the purchase of the old Federal Courthouse on behalf of the City of Lafayette, and more than 100 units of affordable housing for low-to-moderate income residents. The trust also contributed more than \$2 million to help fund Moncus Park

There is absolutely no obligation on the City of Lafayette for the Monroe Apartment project or any of the work of the Trust.

We have a lot of exciting work ongoing at the trust and I would welcome any of you to come visit. In addition to our real estate investments, we are embarking on a new journey to create a Community Development Finance Institution, which will make financing available to small businesses looking to invest in areas of our town that have traditionally been overlooked.

We look forward to a continued partnership with LCG and the city and thank you for your continued support. Please feel free to contact me directly if you have any questions. My cell number is 337-303-7066.

Sincerely,

Kevin Blanchard
